S134	32	medical and image and "x-ray" and (standard near (energy or exposure)) and subtract\$3
S135	19	medical and image and mammogram and "x-ray" and (standard near (energy or exposure)) and @pd>"20080613" medical and image and "x-ray" and (standard near (energy or exposure)) and @pd>"20080613" mammogram and image and "x-ray" and (standard near (energy or exposure)) and @pd>"20080613" medical and image and "x-ray" and (standard near (energy or exposure)) and subtract and @pd>"20080613" medical and image and "x-ray" and (standard near (energy or exposure)) and subtract\$3 and @pd>"20080613"
S136	1	medical and image and mammogram and "x-ray" and (standard near (energy or exposure)) and @pd>"20080613"
S137	19	medical and image and "x-ray" and (standard near (energy or exposure)) and @pd>"20080613"
S138	1	mammogram and image and "x-ray" and (standard near (energy or exposure)) and @pd>"20080613"
S139	2	medical and image and "x-ray" and (standard near (energy or exposure)) and subtract and @pd>"20080613"
S140	10	medical and image and "x-ray" and (standard near (energy or exposure)) and subtract\$3 and @pd>"20080613"
S141	20	x-ray and mammogram and medical and image and exposure and thickness and tissue and energy and @pd>"20080613"
S142	61	x-ray and mammogram and medical and image and exposure and thickness and attenuation and voltage
S143	3	x-ray and mammogram and medical and image and exposure and thickness and attenuation and voltage and ((alternate or different or addition) near mammograms)
S144	4	x-ray and mammogram and medical and image and exposure and thickness and attenuation and ((alternate or different or addition) near mammograms)
S145	6	x-ray and mammogram and medical and image and exposure and thickness and ((alternate or different or addition) near mammograms)
S146	12	x-ray and mammogram and medical and image and exposure and ((alternate or different or addition) near mammograms)
S147	13	mammogram and medical and image and exposure and ((alternate or different or addition) near mammograms)
S148	3	mammogram and medical and image and exposure and thickness and attenuation and voltage and ((alternate or different or addition) near mammograms)
S149	10	x-ray and mammogram and medical and image and exposure and thickness and attenuation and ((standard or reference) near mammogram)
S150	7	x-ray and mammogram and medical and image and exposure and thickness and attenuation and voltage and ((standard or reference) near mammogram)
S151	0	S148 and S150
